

Trlokom Central Manager (SpyWall Enterprise) License Activation

Option 1

This option is not currently available to those who have not made an online purchase.

After you purchase TCM or SpyWall, you will receive an e-mail with the invoice, a key, and a license activation link.

Install TCM and SpyWall client and then click on the activation links to activate the license. If that does not work:

- 1) Install TCM and SpyWall on your PC.
- 2) Start the IE web browser
- 3) Copy and past the license activation link into the “Address bar”
- 4) Your license will be automatically activated

Option 2

After you purchase TCM or SpyWall, you will receive an e-mail with the invoice, a key, and a license activation link. Enter the key(s) in the “About SpyWall” tab and click on the “Activate” button.

Alternate Activation Methods:

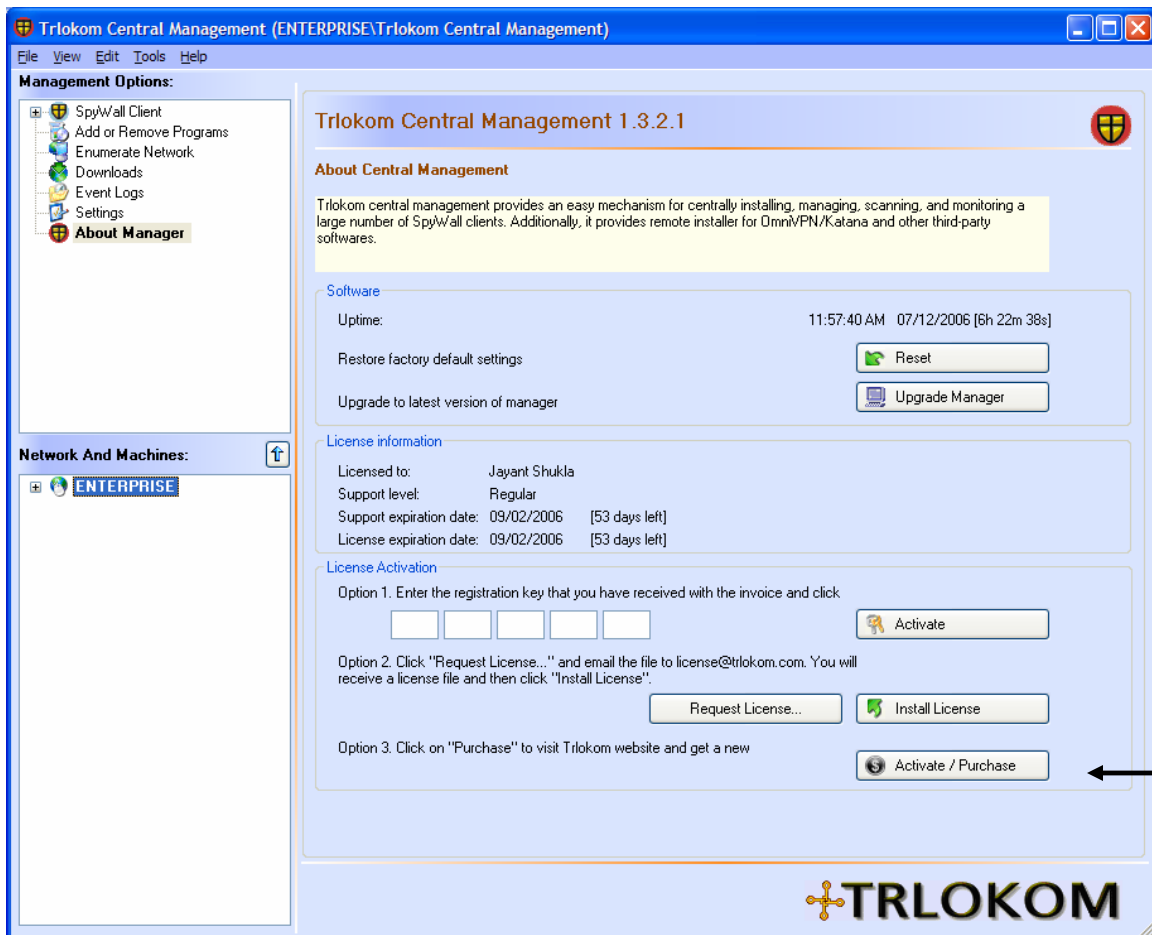

If you are not able to activate TCM license you have two more options.

Option 3

Step 1

Install Trlokem Central Manager (TCM) software on your PC. Before you can download or purchase TCM software, you must have an account at www.trlokem.com and your account must have permission to download TCM software.

After you have downloaded and installed TCM software, from the “About manager” tab, click on “Activate/purchase” button.

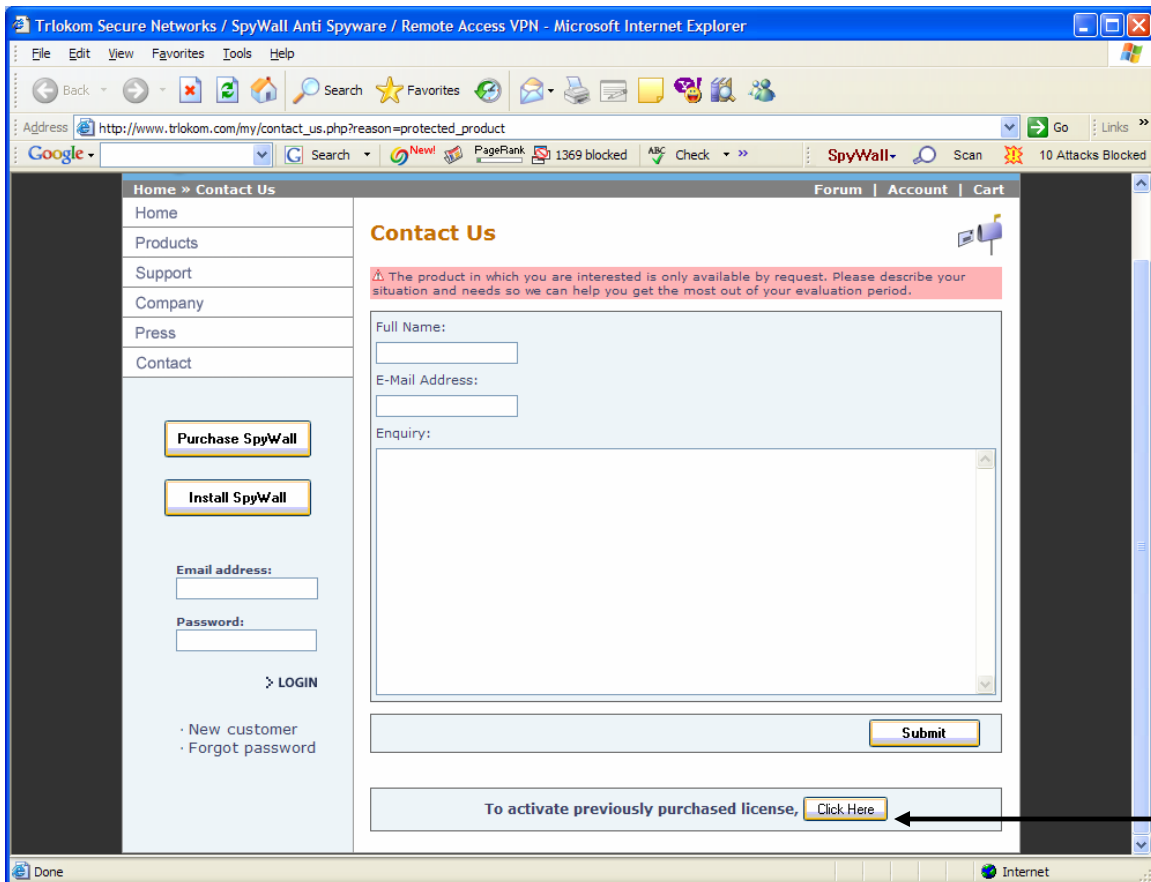

Step 2

TCM will start the web browser and take you to www.trlokom.com.

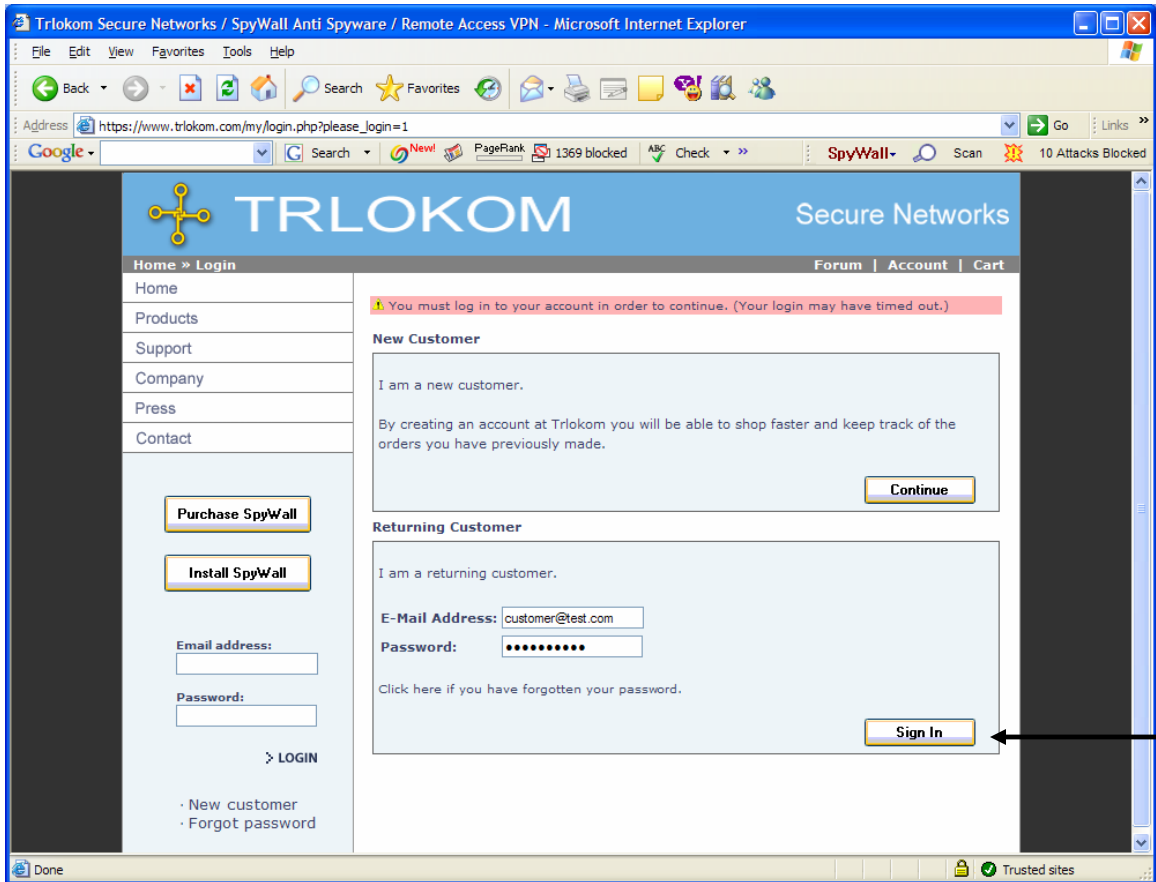

If you wish to purchase TCM, enter your e-mail address and password to login and follow the instructions for purchasing TCM.

If you have already purchased TCM and just wish to activate license, click on the “Click here” button at the bottom of the page.

Step 3

Enter your login information

Step 4

Login will automatically redirect to the “Licenses” page for all Trlokum products.

Select the “SpyWall” tab and it will display all purchased and activated SpyWall and/or TCM licenses. You can either download an old license file or assign a license that has not been activated yet.

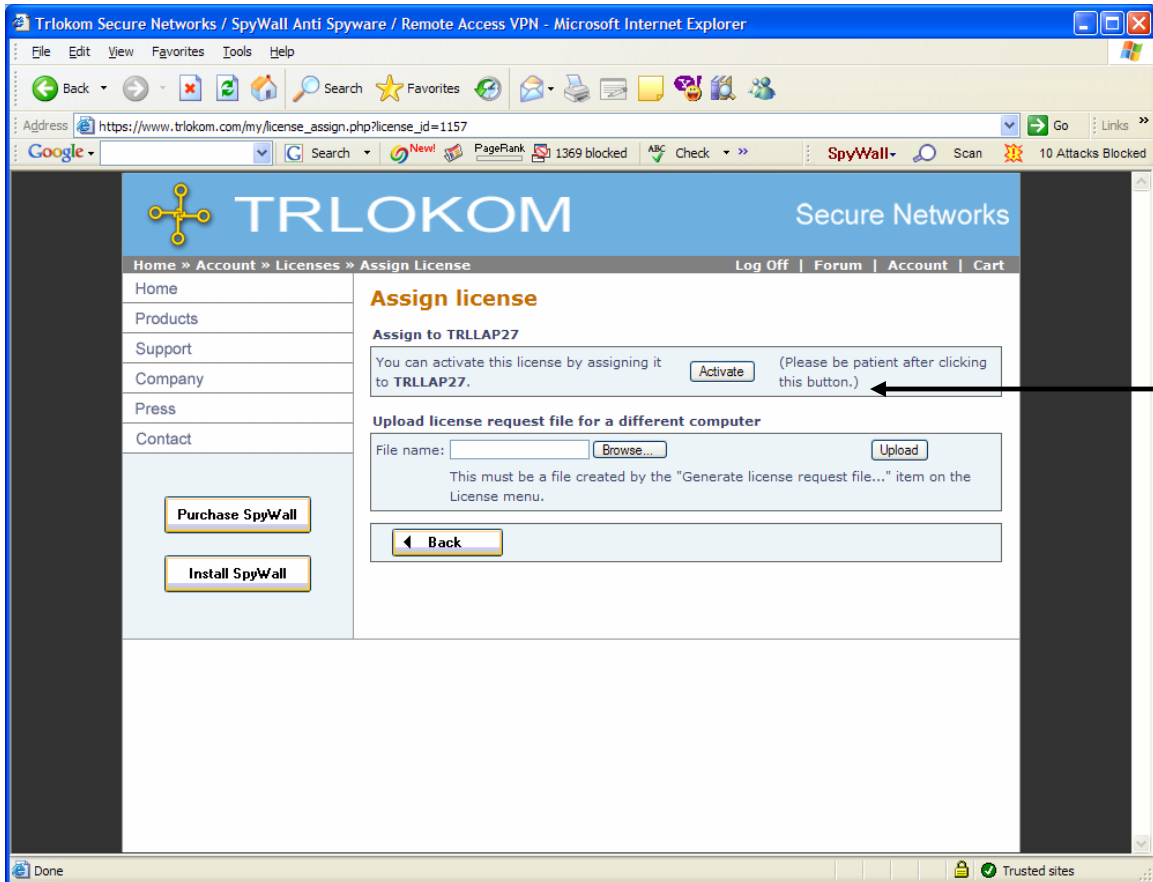

To assign and activate a purchased license, click on “Assign” button.

The screenshot shows a web browser window with the URL https://www.trlokum.com/my/license_list.php. The page displays a list of licenses and a section for 'SpyWall Enterprise Subscription (Manager)'. An arrow points to the 'Assign' button of the 8th license in the list.

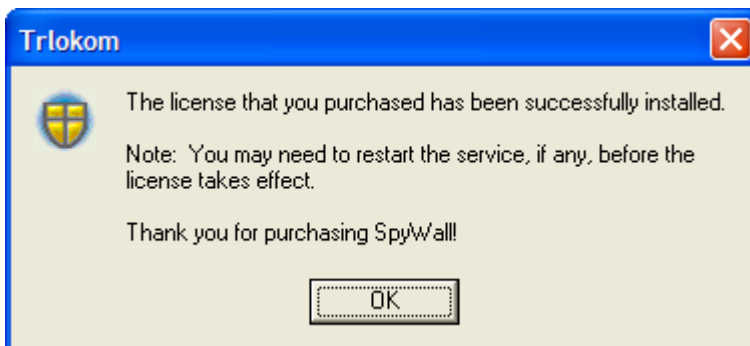

Computer	Action	Support	Features
TRLLAP27	Download Edit	Regular (expires Sep 2, 2006)	Standard
SpyWall clients	Download Edit Split	Regular (expires Sep 2, 2006)	Total: 50 Unassigned: 50

Step 5

Clicking on the “Assign” button will bring up the final “Assign license” page. It will display the computer name and ask you to click on “Activate” button to confirm and activate the license on that computer.

The dialog box shown below will be displayed after the license file has been successfully installed.

Option 4

- 1) Click on “Generate license request” button in “About manager” tab
- 2) e-mail the file to license@trlok.com
- 3) You will receive a license file. Click on “Install license” button in “About manager” tab and provide the location of the received license file
